## Archeage unchained issues

Dear Community, there is a recent problem affecting a number of players from being able to log in with their correct email address. We have implemented a fix for this problem, and it must be resolved now. Due to some technical problems, some players' email addresses were overwritten, so they could no longer log in. Accounts have never been hacked and no one else has had access to them. To fix the problem, our experts dumped the email data of affected accounts before 08/10/2020. If you still have trouble with the in-view, please contact the ticket support directly so you can help as soon as possible! Of course, we want to thank you for your patience and understanding of this unexpected issue, and have decided to compensate all those affected by this problem. Each affected account will be credited with a 14-day patron pass. We would like to take this opportunity to thank you once again for your patience and understanding as well as for playing Rift. Have fun with everyone! Best Relationship. Your Rift Team youtube.com/watch?...
